

# VITA-B ENZYME POLISH

Dual Action Exfoliating Cream

## BENEFITS

- Evens out skin surface for a more radiant complexion
- Improves the appearance of fine lines, dark spots, and dry patches
- Strengthens the skin barrier against harmful environmental agents
- Supports increased absorption of proceeding products
- Instantly smooths, softens, and improves facial radiance

## KEY INGREDIENTS

**ECO-FRIENDLY POLISHING POWDER:** derived from the bio-fermentation of sugar

**POMEGRANATE ENZYMES:** natural fruit enzymes gently remove dead skin cells

**NIACINAMIDE:** anti-inflammatory, reduces skin sensitivities, fortifies barrier, brightens discoloration

**PANTHENOL:** infuses the skin with hydration, visibly softening the skin

## RECOMMENDATIONS

After cleansing, while skin is still damp, massage pomegranate exfoliating cream gently onto skin using a circular motion for 1 to 3 minutes. Allow to sit for 10 minutes, and then rinse with lukewarm water. Ideal for use as frequently as once per day. For best results, follow with rejuvenating serum and hydrating mist after exfoliating.
